2ND ANNUAL

2ND ANNUAL LIVERMORE INNOVATION FAIR

Arts in TECHNOLOGY

SPECIAL GUEST SPEAKER PRESENTATIONS
THEATER DOORS OPEN 15 MINUTES PRIOR TO SPEAKER TIME

Peter Graube has worked at NASA for more than 30 years on automated wind tunnels, a specialized wind tunnel test, arc jets, centrifuges, laser systems, a shock tube, a rocket motor testbed. He recently engineered a software specification procedure to comply with stringent new software standards. Peter brought to NASA extensive innovation experience. After earning a degree in physics from University of Michigan, Peter taught mathematics for a year at St. Paul's School. He then moved into engineering, where he discovered a passion for machine automation and went on to automate factories for automobiles, mirrors, furniture, and brass extrusions. An avid orienteer, Peter has competed in 24-hour events in the Arctic Circle and central Australia.

JACK MCCAULEY - 12:45PM
Guitar Hero Developer / Co-Founder and Former
Chief Engineer of Oculus Rift

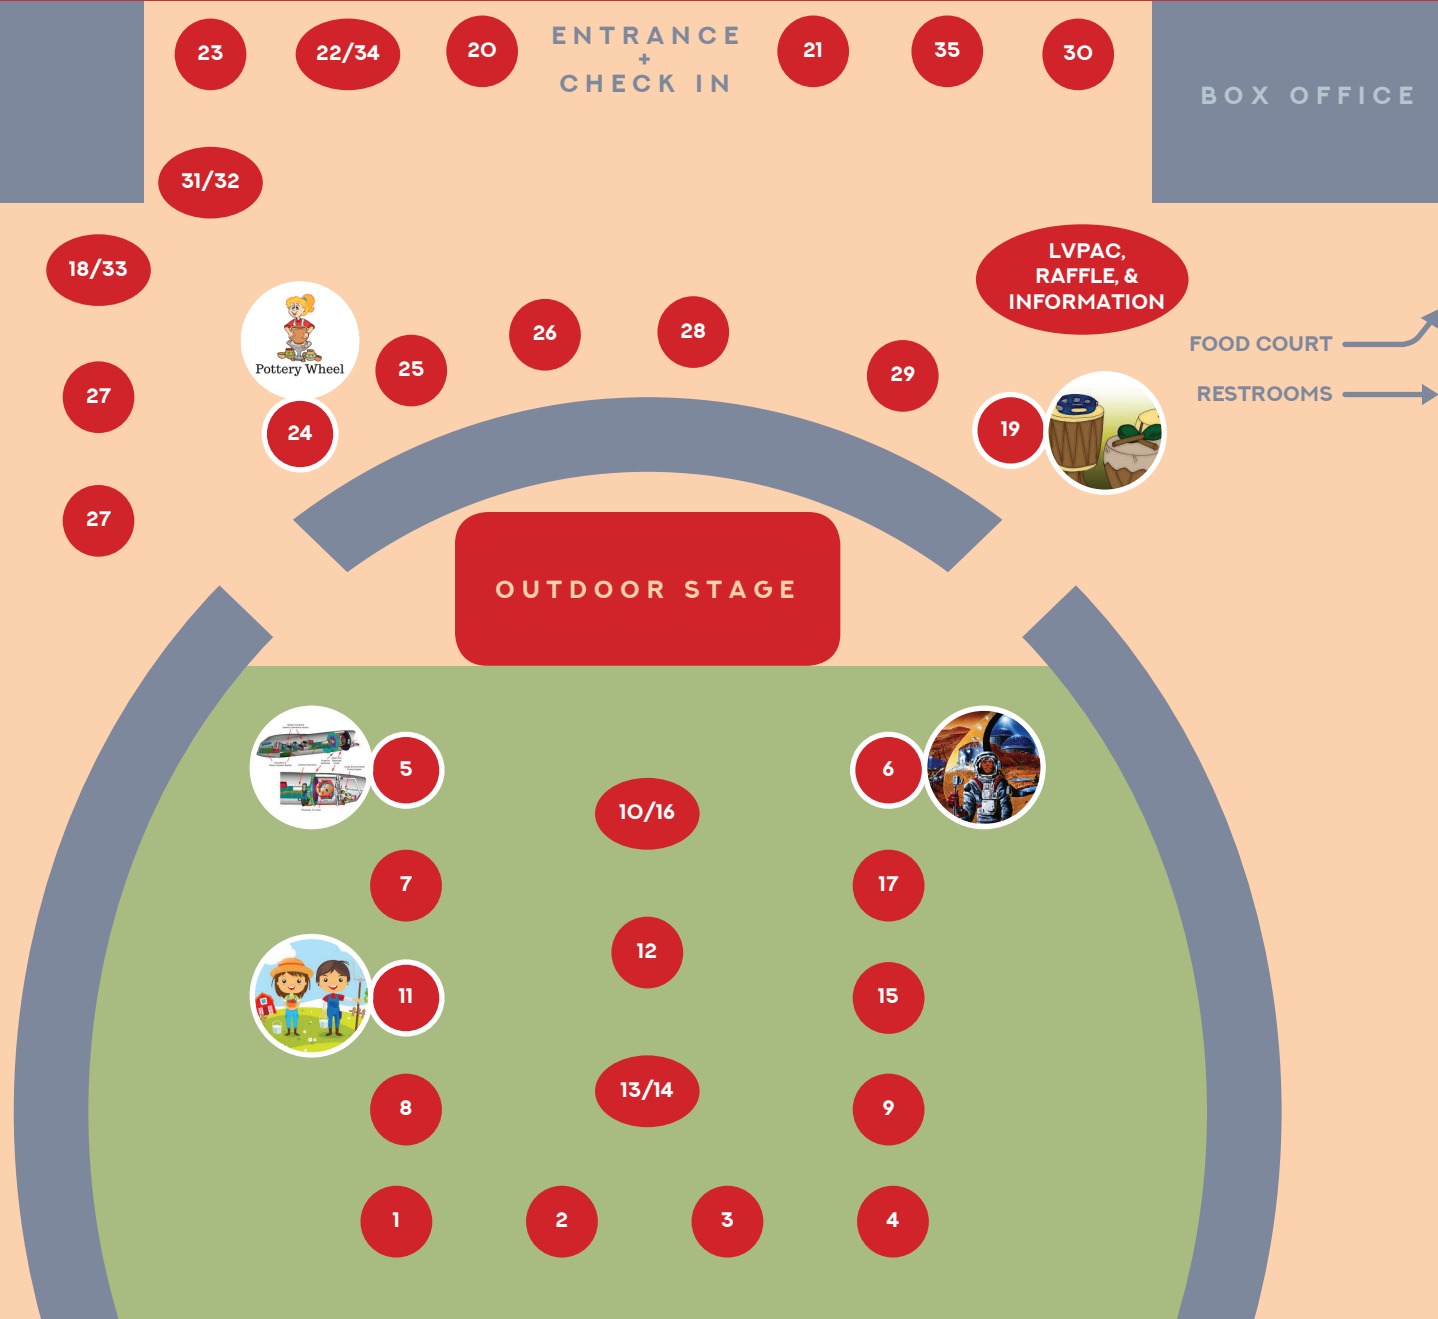

Jack McCauley, an engineer, hardware designer, inventor, video game developer and philanthropist, is best known for designing the guitars and drums for Guitar Hero, considered one of the most influential video games of the 21st century. He was also co-founder and chief engineer at Oculus, where he took Palmer Luckey's original prototype and built it into the Oculus DK1 and DK2 virtual reality headsets. An alumni of the UC Berkeley College of Engineering, where he attended on a full scholarship, Jack now teaches design innovation there and serves as an Innovator-in-Residence at Jacob's Hall. He holds numerous U.S. patents for inventions in software, audio effects, virtual reality, motion control, computer peripherals, and game controllers.

KARL WENTE - 1:45PM
Fifth Generation Winemaker and Senior Vice-President of Winemaking

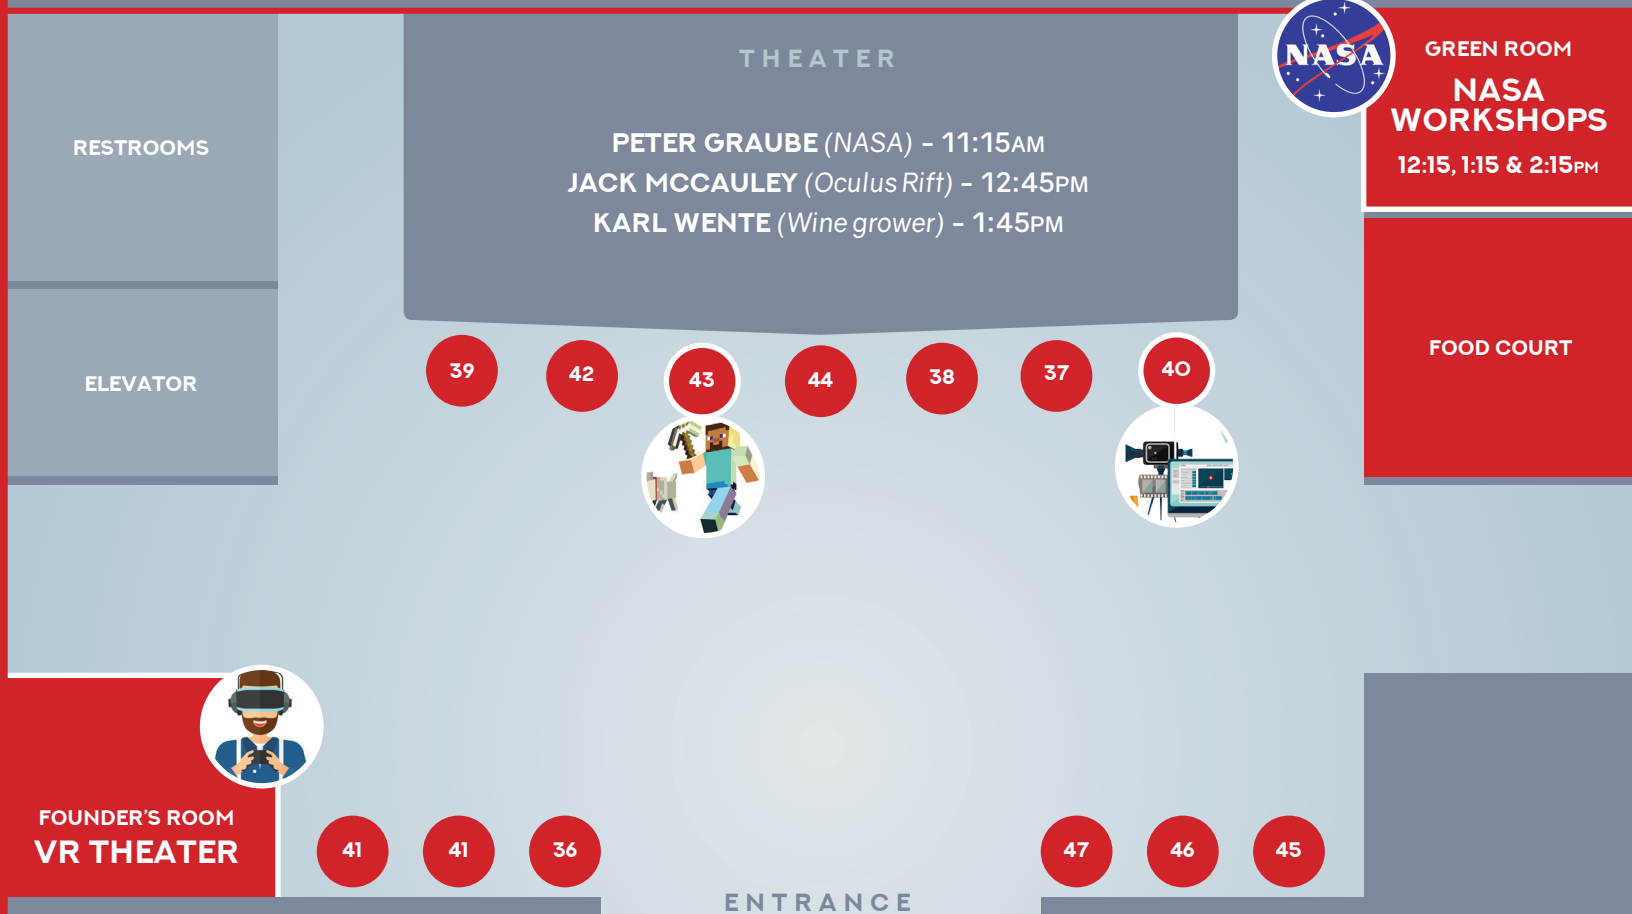

Karl Wente oversees all winemaking at Wente Family Estates. Since joining the family business in 2001, he has led wine innovation, started Nth Degree, and helped expand the Wente Family Estates portfolios. He holds a degree in Chemical Engineering from Stanford University and two Master's degrees in Horticulture (Viticulture) and Food Science (Enology) from the University of California at Davis. Karl grew up working at the winery and also worked with Peter Michael Winery in Sonoma and Brown Brothers winery in northern Victoria (Australia), and balances his strong academic background with the traditional hands-on approach of prior generations. Karl's creativity also extends to music and he plays locally with his band The Front Porch.

BANKHEAD PLAZA

Livermore Science
& Society Center

Livermore Valley Performing Arts Center strives to inspire and nurture creativity and a love for arts in students of all ages. Our outreach program includes such major district-wide events as the Livermore Innovation Fair in April, STEAM FEST in October, as well as the "So Wise So Young" an in-class literacy program for second grade students in Livermore Schools. Other special opportunities allow students to attend master classes with guest artists or participate in internships. Through free performances, discounted tickets, in-school assemblies, workshops, classes and cultural events, we are able to share the arts with more than 30,000 students and their families throughout the Tri-Valley each year.

To find more information go to Lvpac.org/education or email education@lvpac.org

Livermore Valley Performing Arts Center is a 501(c)3 independent non-profit arts organization.
